*do you communicate through violent acts?*

Looking to interview Female and AFAB\* people between 25 - 45 years old who have been physically violent (nonconsensually) in loving relationships with family, primary carers, lovers, children and/or towards yourself.

The interviews will be fictionalised to form the basis of a Virtual Reality work about the entanglement of love and violence in relationships looking specifically at the nature of Female and AFAB violence.

This interview will last 1 hour 30 and will be compensated with a fee of £25 for your time. The interviews will be audio recorded anonymously purely for research purposes. Taking place around the end of November and December 2021.
